

#### DESCRIPTION

The Naru Light Chair, a reinterpretation of the timeless Naru chair design. Crafted with a gently rounded backrest and graceful slender legs, this chair infuses any space with a sense of youthful vitality and an airy ambiance. The seat and / or back can be lavishly upholstered with premium leather or exquisite fabrics, allowing for a personalised look. Elevate your design with the choice of metal accents, adding a touch of sophistication to your space.

#### PRODUCTION PROCESS

The chair parts are made of solid wood pieces of the same length but different widths, with precisely crafted joints on CNC machines. Each piece is chosen through careful matching of wood colors and structures. The upholstered seats are covered with HR foam and upholstery for superior comfort. Certain chair collections are produced using a special wood bending technology. The technical parameters of hand-assembled chairs comply with standard requirements. Final sanding is done manually with fine-grained sandpaper, and various types of finishes enable a wide selection of the chair's final appearance.
