

# Dolmen Island System

A new "member" of the Dolmen collection that can be combined with a sofa, an armchair and a pouf. This modular system designed so that it can be used from all sides, which allows countless variations to combine. As a striking system with dynamic functional and aesthetic capacity, it is receptive to all types of space; as a large system, it is ideal for large public open spaces but also for large private spaces. In smaller spaces, with a good combination of fewer elements, Dolmen Island becomes the central bearer of the environ-

ment in which it is located. Dolmen Island was designed with a high awareness of modern needs and ways of life, with the idea that users "manage" communication among themselves, both in the home and in business or public spaces. It is a very free system that offers the possibility of reinterpreting the space in which it is located.

Designed by **Zoran Jedrejic**

## Dolmen Island System

### General dimensions

Height	65cm
Seat Height	41cm
Seat Depth	64cm

### Structure

Solid Wood, Multilayer Plywood

### Suspension

Elastic Webbing

### Seat & Backrest

Multilayer HR Foam, Polyester Wadding

### Legs H 3cm

Solid Wood, included Silicone Pads Black RAL 9005

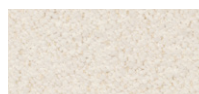

### Upholstery

Fabric

### Recommended fabrics

Orsetto, Mazurka, Rico, Main Line Flax, Lario, Nomi, Azura, Azalea, Game

### Suggested Fabric Colours

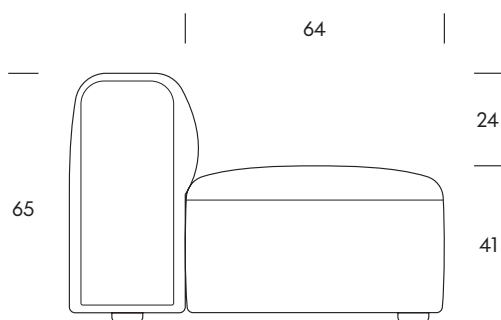

Volumen 900 – Orsetto 01/1

Volumen 700 – Rico 989.490

Volumen 100 – Game 27

Product information website  
<https://volumen.ba/collection/dolmen-island/>

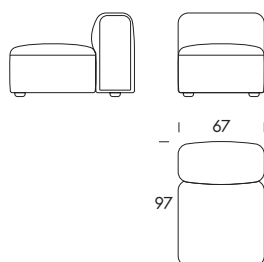

Made from FSC-certified wood and other controlled materials.
