

Kubik System

Kubik is a collection of emphasized geometrics and rectangular forms. The design involves a contrast between the firm contours and soft, comfy sitting arrangement, propped on slender metal or wooden legs. The harmonious interplay between the reliable visual geometry and the fluffy comfort, create two distinct impressions – Kubik is simultaneously sturdy and delicate. The specific visual rhythm created by the shifts between fullness and emptiness, lends this

collection its particular continuity and dynamics. Kubik is a modular collection involving feather-filled cushions, deep sitting, exquisite comfort and extreme stability and sturdiness. It is intended for both public and private spaces. Kubik legs come in either metal or wood – walnut or oak in natural or black color.

Designed by **Zoran Jedrejic**
