About Us

Somkar Furniture Company, which was founded in 1967 in Izmir, has grown its production and management capacity day by day and as of the 54th year, with the participation of the family members of the 3rd generation to management, has become a production and sales organization that has reached national size in the production sector of sleeping products such as mattress, bed base and headboard in the modern production site in Izmir, Torbali.

Our company, whose products are in high demand both in Turkey and abroad, has become a modern production facility of **6,000 square meters, employing an average of 120 people who have continuously improved thanks to their investments over the years.**

Our company, which can produce an average of **150 mattresses** and **150 bed base-headboards per day** on the current production track, produces approximately **45.000 mattresses** and **45.000 bed base-headboards of various sizes and quality per year.**

Our company, which produces its products as economic and top class products by shaping them according to the demand in the market, has become able to **export its products to more than 45 countries** including Germany, Netherlands, Belgium, Austria, Sweden, Greece, all over Europe and surrounding countries due to the quality standard it reaches.

Our company, which tries to use the most advanced systems and materials in the upper groups of its products and follows the world trends, carries out production for the domestic and foreign market especially in high-quality product groups thanks to the production structure it has continued without compromising for years.

When we look at the current market situation of our company which is able to sell the products we produce both domestically and abroad through our dealers;

- There are approximately 100 furniture sales companies and dealers, mostly in the Aegean Region, who are constantly buying from our company.

-Moreover, our products are presented and sold to all Izmir residents in their own sleep products showrooms in Izmir.

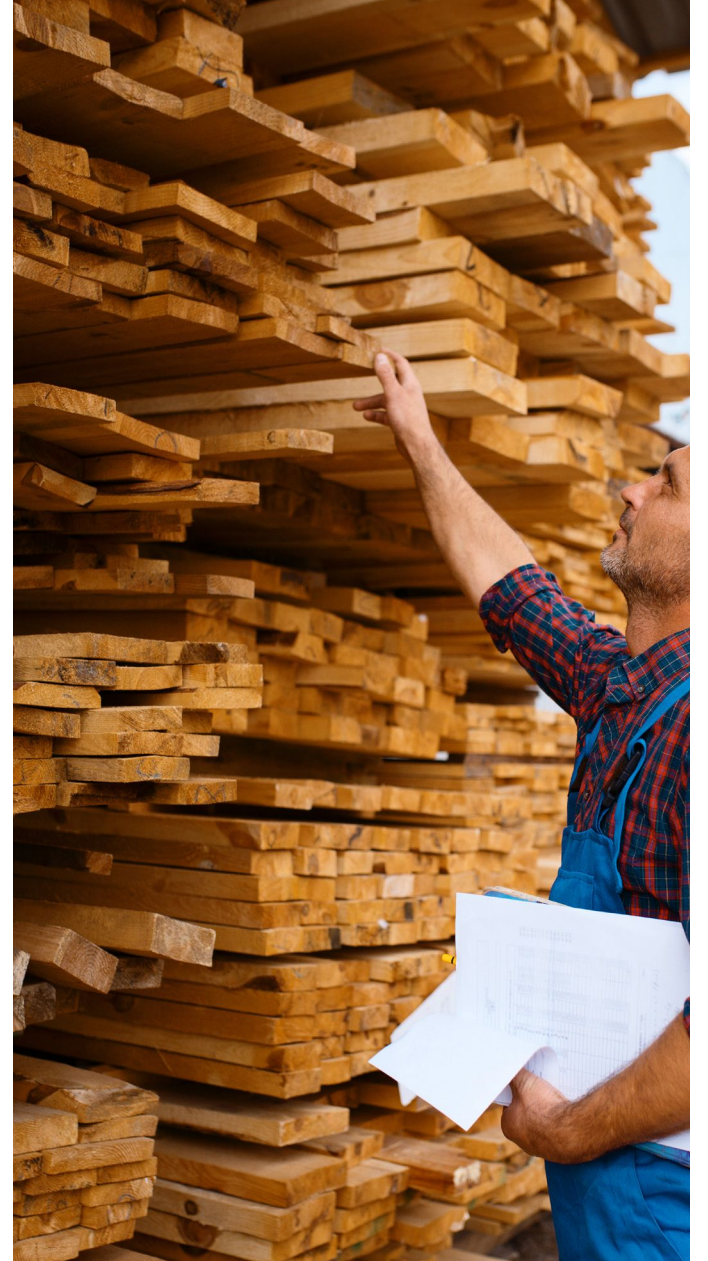

- In addition, the SB Serabed brand is exported to Germany, Greece, Belgium, Austria, England, Czechia, Sweden, Israel, Kazakhstan, Moldova, Croatia, North Macedonia, Georgia, Romania, Morocco, Senegal, Bosnia and Herzegovina, Ivory Coast, Guinea, Montenegro, Serbia, Kosovo, Ukraine, Slovenia, Bahrain, Libya and the Netherlands.

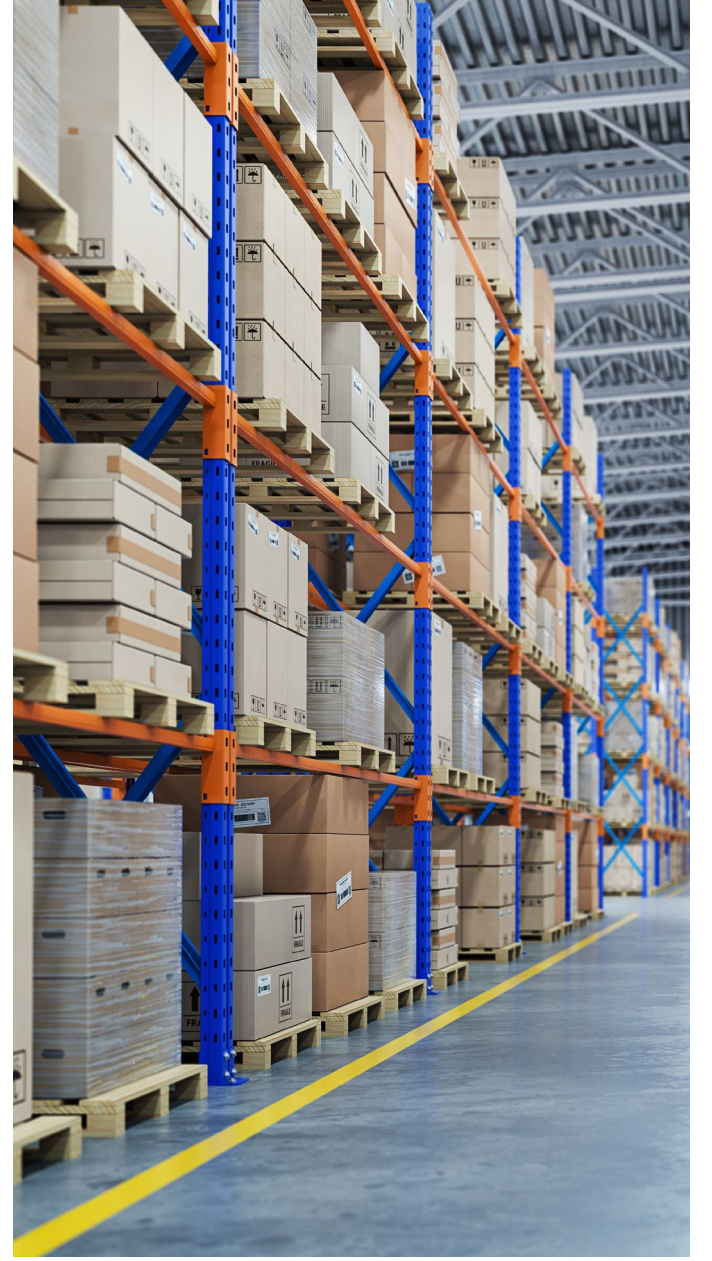

- Our company, which also takes part in digital marketplaces in Turkey, sells an average of 5,000 mattresses in a year through these platforms.

Therewithal, our R&D and design department, which we have created to produce innovative products, and an average of 120 personnel that we already employ, continues to develop designs and productions in accordance with sleep trends around the world.

Our company aims to continue its investments and carries out appropriate medium and long-term work plans because it believes that Somkar, SB Serabed, Sleep Mode brands, which it has with all these investments and moves that improve its corporate capacity, should be recognized as a brand with a solid structure and superior service quality understanding.

Everything for a better sleep.

Nox

The Perfect Balance of Support and Comfort

The Nox Mattress is meticulously engineered to provide a balanced sleep experience, combining modern spring technology with high-comfort foam layers. Designed for durability and long-lasting performance, this model ensures a restorative rest by supporting your body's natural alignment.

Advanced Pocket Spring System

At its core, the Pocket Spring System features independently wrapped coils that react individually to your movements. This technology minimizes motion transfer and provides targeted spinal support. Reinforced by a dedicated Pocket Spring Support Layer, the mattress maintains its structural integrity while offering a medium-firm feel that caters to a wide range of sleepers.

Plush Surface & Hyper Foam Comfort

The sleep surface is wrapped in a premium Quilted Knitted Fabric, offering a soft and breathable touch. Directly beneath, a layer of Hyper Foam provides exceptional elasticity and softness, relieving pressure points without the "sinking" feeling of traditional memory foam. The addition of Silicone Fiber filling enhances air circulation, keeping your sleep environment fresh and airy.

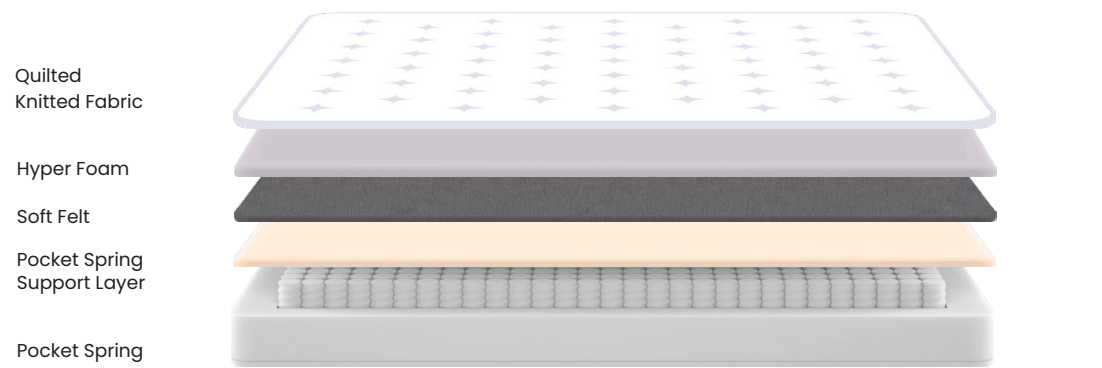

Durable Design & Dual-Sided Versatility

The Nox Mattress is built for longevity. Featuring Soft Felt layers and High-Density Support Foam, it is designed to resist sagging over time. One of its standout features is the Double-Sided Usage capability; by flipping the mattress periodically, you can extend its lifespan and enjoy consistent comfort for years.

Breeze

Refreshing Comfort & Advanced Support

The Breeze Mattress delivers a rejuvenating sleep experience by combining innovative cooling technology with a multi-layered support system.

Advanced Hybrid Support

At its core, the Pocket Spring system provides individualized support to your spine, adapting to your movements throughout the night. This is reinforced by a specialized Pocket Spring Support Layer and Soft Felt, ensuring structural integrity and long-lasting durability on both sides.

Cooling Surface Technology

The standout feature of this model is the Top Side Cooling Surface Fabric. Integrated with a premium Quilted Knitted Fabric, this advanced material helps regulate body temperature, offering a refreshing and breathable feel that lasts until morning.

Multi-Layered Plushness

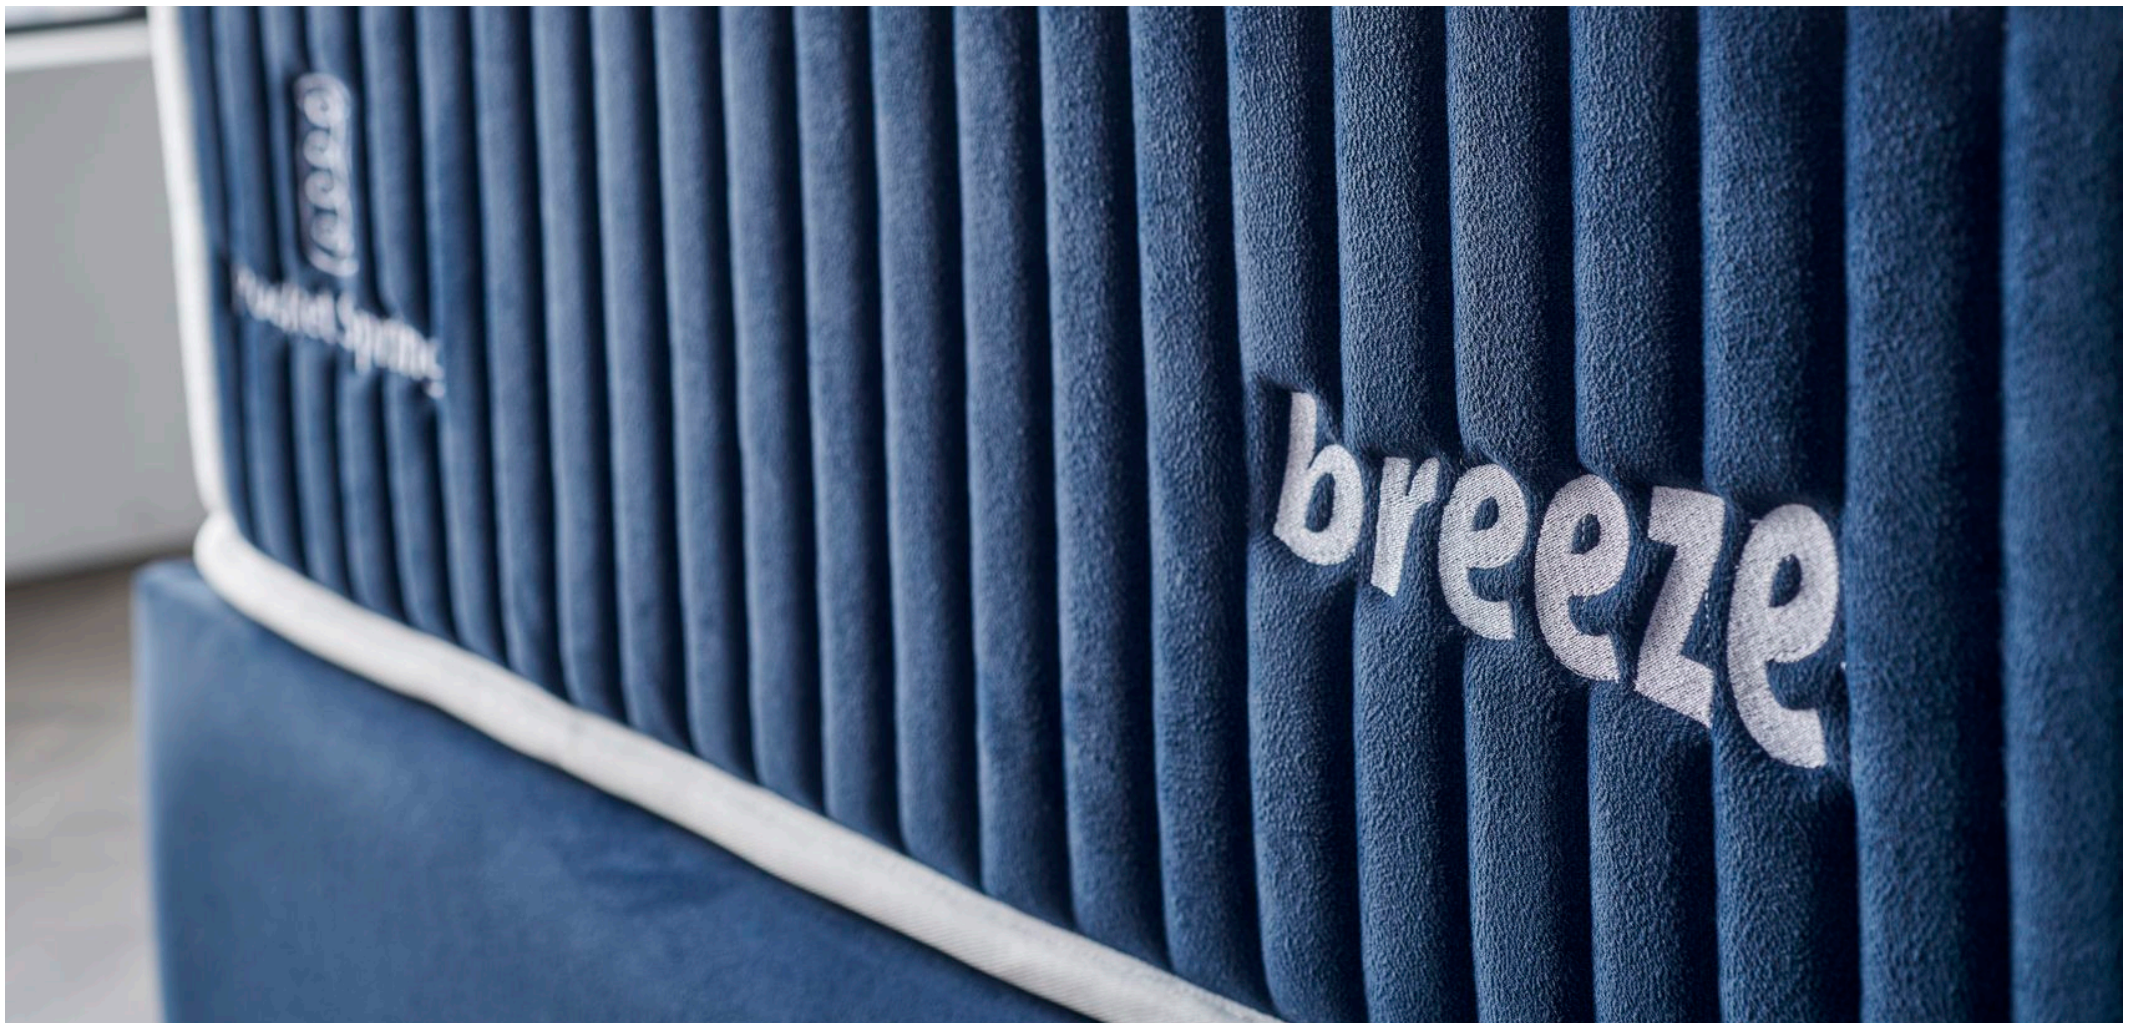

Beneath the surface, the mattress features a sophisticated combination of Continuous Foam and Surface Foam. These layers work together to provide extra plushness and a luxurious touch, contouring to your body while maintaining a fresh sleep environment.

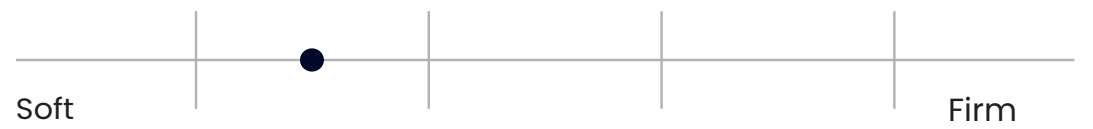

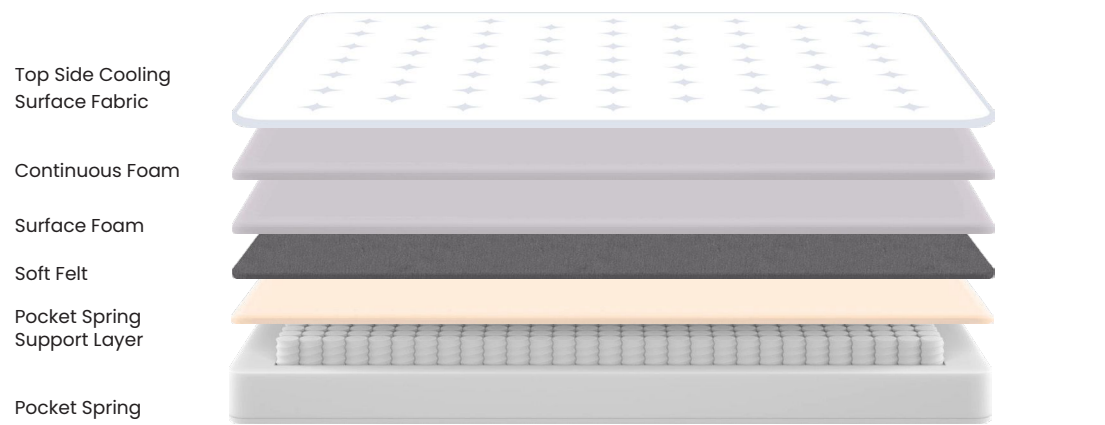

Versatility and Durability

Designed for long-term performance, the Breeze mattress features a Double-Sided Usage design, allowing you to maintain consistent comfort levels for years. Robust High Density Support Foam ensures the mattress retains its shape, while integrated Carrying Handles make positioning and flipping effortless.

Arte

The Arte Mattress offers a luxurious sleep experience by combining high-end comfort layers with advanced structural support. At its core, the Pocket Spring system works independently to balance body weight and provide precise spinal alignment.

Precision Support & Stability

This durable foundation is reinforced with High-Density Support Foam and Soft Felt layers on both sides, ensuring the mattress maintains its perfect form and stability for years to come. The additional Pocket Spring Support Layer enhances the structural integrity, providing a reliable base for a restful night.

Adaptive Comfort Layers

The Arte features a sophisticated blend of Continuous Foam and Silicone Fiber, which adds extra plushness and a voluminous feel. These layers work together to provide a cozy and inviting sleep environment, contouring to the body for enhanced relaxation.

Long-Lasting Versatility

Designed for Double-Sided Usage, the Arte Mattress delivers consistent, superior comfort and long-lasting performance. With its functional Carrying Handles, flipping and positioning the mattress is effortless, allowing you to enjoy the same high-quality sleep on both sides.

Pure

Here is the revised text for the Pure mattress, focusing on its double-sided durability and pocket spring technology:

Long-lasting Performance with Double-Sided Versatility
Experience a bed that stays as fresh as the first day. The Pure mattress combines the personalized support of pocket springs with the practical advantage of double-sided usage.

Breathable Special Fabric and Quality Components
Thanks to the unique structure of our antiallergic fabric, we have created a mattress perfectly suited for all seasons. This specialized fabric is breathable and antiperspirant, preventing moisture buildup and odors, which significantly extends the lifespan of your mattress.

Freedom of Double-Sided Usage
We designed the Pure mattress for those who value durability. By using high-quality, medium-firm components in the layers close to the surface and enabling double-sided usage, we have ensured a long-lasting sleep surface that maintains its shape for years.

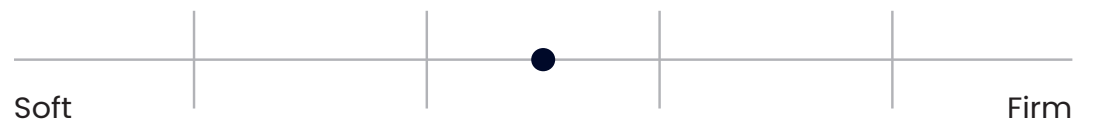

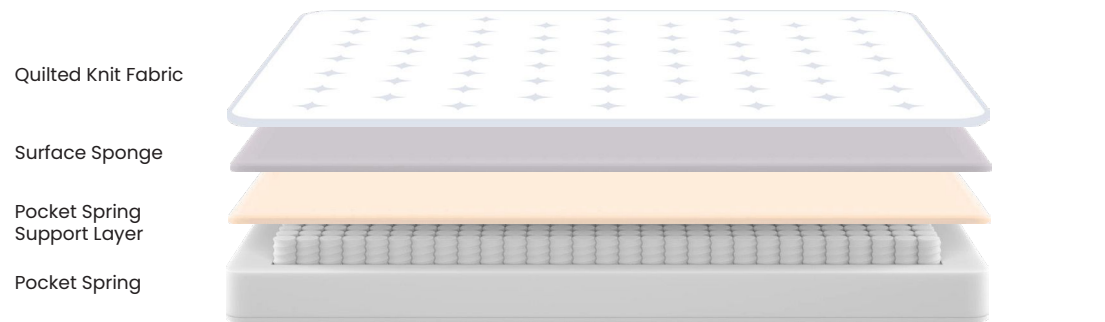

Every layer features premium foams and reinforced materials designed for specific pressure zones. This ensures that every point of your body receives the correct support, resulting in an uninterrupted and high-quality sleep experience.

Pocket Spring Comfort
The Pure mattress utilizes an advanced pocket spring system that responds to your anatomy and sleep movements with perfect adaptation. This system also ensures that partners are minimally affected by each other's movements, allowing for a deeper, more peaceful rest.

Mira

Feel Like You're Floating Above the Clouds

With its velvety texture and a topper designed for superior comfort, you will feel as though you are sleeping above the clouds.

Extra Comfort

Crafted from a specially knitted, soft-touch fabric, the Mira mattress is enhanced with a plush topper for those who seek that extra layer of luxury.

It is no exaggeration to say this will be one of the most comfortable mattresses you have ever experienced. While the soft topper in the top layer gently cradles your body weight, the base layer—built from high-quality components—consistently provides the precise support your body needs.

The Mira mattress keeps the body perfectly balanced thanks to the specialized fibers used in its quilting. This harmony delivers a high-comfort sleep experience, allowing you to wake up feeling refreshed and fully restored.

Extra Strong Hercules Spring System

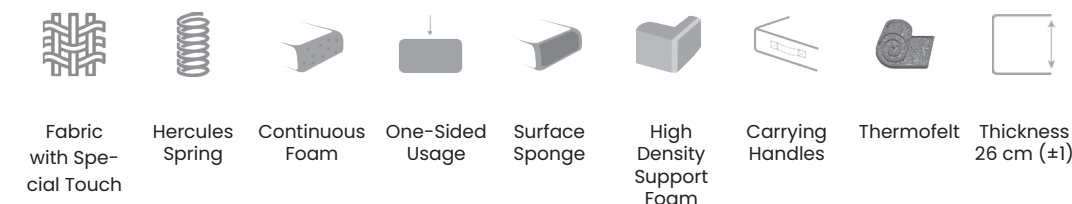

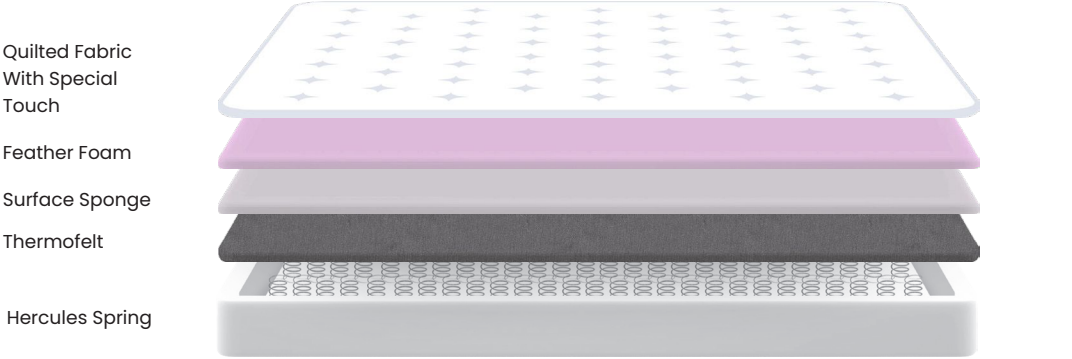

Featuring a specially designed 72 mm diameter spring technology, the Mira mattress contains more springs across its base than standard mattresses. This increased spring count enhances both overall comfort and structural stability.

We have such confidence in these precision-engineered springs that, in addition to our standard 2-year mattress warranty, we provide a 10-year guarantee specifically for the spring system.

Icon

Sophisticated Aesthetics and Ergonomic Support

The Icon Mattress combines sophisticated design with a multi-layered structure engineered for superior ergonomic support. At its core, the Pocket Spring system adapts to your body contours, providing precise spinal alignment and minimizing motion transfer for an uninterrupted sleep.

Reinforced Stability

This core is reinforced with High-Density Support Foam and Soft Felt on both sides, enhancing the mattress's stability and ensuring long-lasting durability. The additional High Destiny Support Layer (Pocket Spring Support) provides a robust foundation that maintains the mattress's perfect form for years.

Luxurious Surface Comfort

The surface features a premium Quilted Knitted Fabric that offers a soft, skin-friendly touch. Beneath this layer, a sophisticated combination of Continuous Foam and Surface Foam provides extra plushness and a luxurious feel, contouring gently to your body without compromising support.

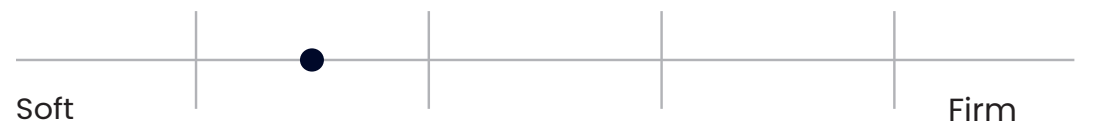

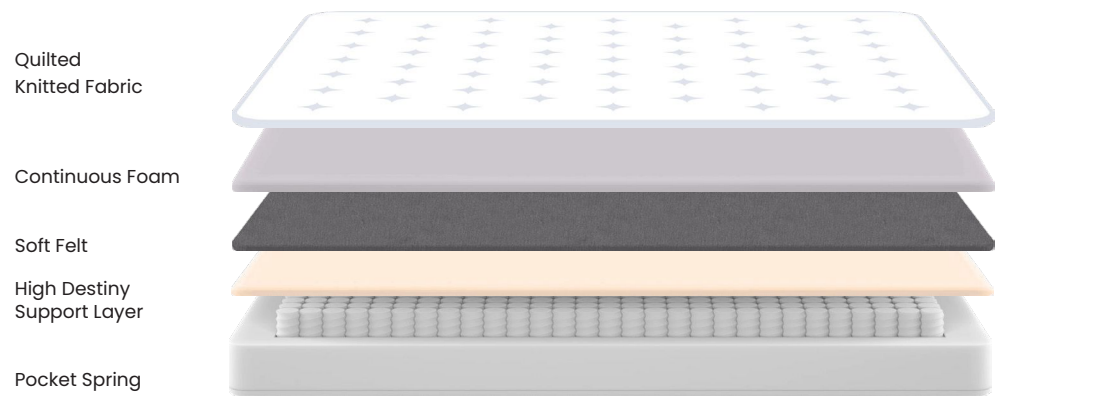

Double-Sided Versatility

Designed for Double-Sided Usage, the Icon Mattress delivers consistent, high-quality comfort from both sides. Equipped with functional Carrying Handles, it is easy to flip and reposition, ensuring a fresh and comfortable sleep surface year after year.

Globe

You will miss lying on this mattress all day, which we have revealed its soft texture with a special touched high-weight knitted cotton fabric, viscose and feather foam.

Breathable Mattress Thanks To Its Special Fabric,Extra Comfort Coming From Feather and Viscose Foam

We have produced Globe, one of the most valuable members of the Luxury Edition series, by using special fabric with very high moisture absorption properties. The highest quality materials used in the Globe mattress increases the comfort offered by the inner layers and allow the mattress to maintain its shape for many years. Thanks to the Globe mattress, you will experience the use of a cool bed that traps moisture inside. The outer surface of this mattress is covered with a very special and enriched natural cotton knitted fabric. For long-lasting comfort and durability, the highest quality foam and pocket springs are used in all layers.

We also gave it a magnificent softness with the feather foam. The viscose foam took comfort and durability a few steps further. The special cotton fabric on the surface helps the outer surface of the mattress to absorb moisture, drying it quickly and allowing your body to breathe. This non-perspiring fabric structure prevents the odor that may occur in the mattress, which makes Globe a longer lasting bed.

Pocket Spring Comfort

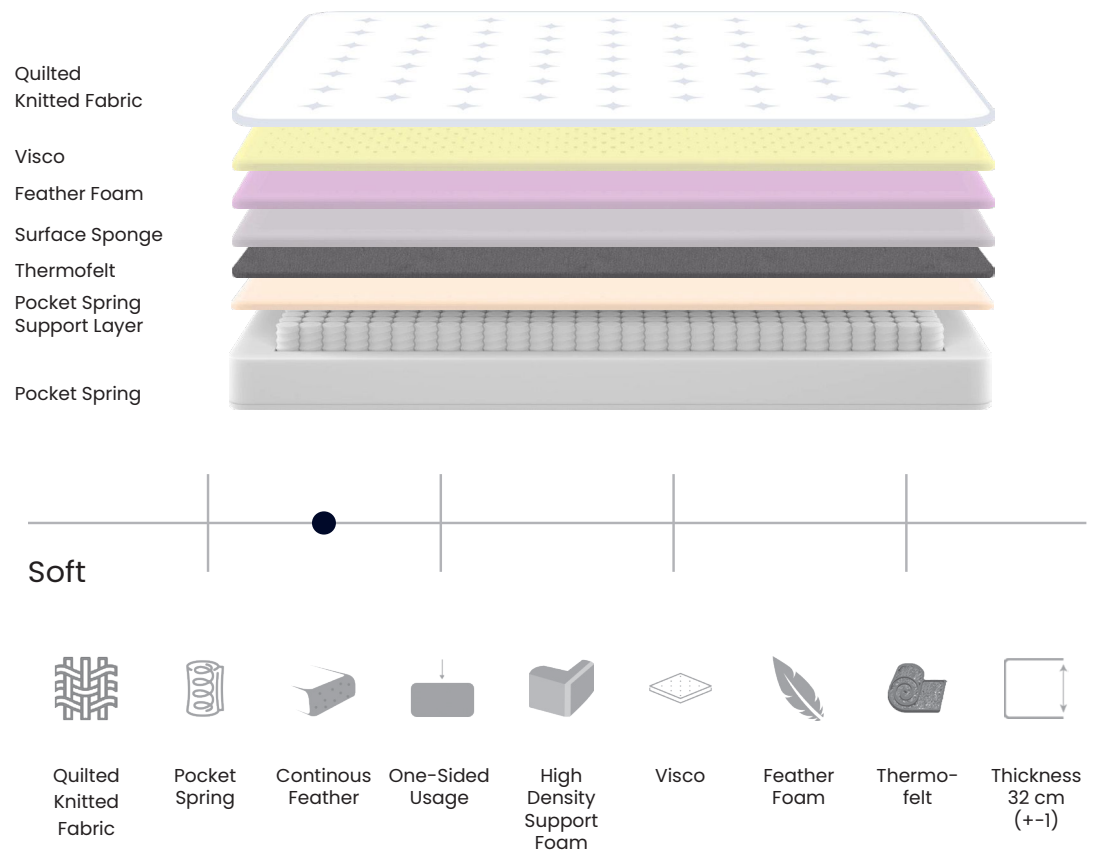

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Sky

Designed to Elevate Your Sleep Experience with Elegance and Comfort

Breathable Surface and Layered Comfort

The Sky mattress offers a soft, skin-friendly touch with its premium Quilted Knitted Fabric, while its breathable structure ensures a fresh sleep environment. Beneath the surface, a combination of Continuous Foam, Surface Sponge, and Silicon Fiber creates a plush feel that adapts to your body's contours for ultimate comfort.

Advanced Pocket Spring Technolog

Equipped with a Pocket Spring system, the Sky mattress provides individualized support by adapting to your movements during sleep. This technology fully supports spinal alignment, minimizes partner disturbance, and ensures an uninterrupted, high-quality sleep experience.

Durable and Functional Design

Crafted with high-quality materials, including a robust Thermofelt layer and Support Sponge, the Sky mattress retains its shape and stability for years. Its Double-Sided Usage design allows for versatile performance, ensuring you receive the same level of comfort from both sides.

Wave

Extraordinary Comfort and Natural Elegance

The Wave mattress, a standout in the Luxury Edition series, combines a specially quilted cotton fabric with advanced support layers to deliver an extraordinary comfort experience. Designed for those who seek both luxury and durability, it ensures a restorative sleep night after night.

Breathable Cotton Surface and Thermal Regulation

The Wave mattress features a premium Cotton Knitted Fabric that naturally regulates body temperature. The skin-friendly Silicon Fiber and natural vegetable fibers within the cotton structure facilitate moisture transfer, providing a cooling effect when needed and maintaining an ideal sleep temperature throughout the year.

Advanced Pocket Spring System

At the heart of the Wave mattress is a high-quality Pocket Spring system. These independently wrapped coils adapt to your body's movements, providing precise support to the spine, waist, and shoulders. This system minimizes partner disturbance and ensures that the mattress retains its ergonomic shape for many years.

Enhanced Comfort Layers

Beneath the breathable surface, a combination of Continuous Foam and Surface Foam provides extra plushness. These layers, supported by High-Density Support Foam, offer a balanced surface that meets your body weight with a "soft-medium" touch, as reflected on the comfort scale.

Durability and Dual-Sided Versatility

Designed for long-lasting performance, the Wave mattress features a Double-Sided Usage design. This allows you to flip the mattress periodically to maintain consistent comfort levels. With a substantial 32 cm (± 1) thickness and sturdy Carrying Handles, it combines functional excellence with sophisticated style.

Cosy

A Masterpiece of Dual-Spring Technology

The Cosy Mattress represents the pinnacle of luxury, combining artisanal craftsmanship with a sophisticated double-spring system. Designed for those who seek an elite sleep experience, this model offers unmatched comfort and a majestic appearance.

Dual-Spring Excellence: Micro Pocket & Main Pocket Springs

What defines the Cosy is its dual-layer spring technology. The top surface features a specialized Micro Pocket Spring system integrated into a rich pad, which instantly reacts to your body's weight to cradle your back and waist. Beneath this, the main Pocket Spring system provides deep structural support, ensuring perfect spinal alignment and minimizing partner disturbance.

Luxurious Layering and "Continuous Feather" Feel

For an unattainable level of softness, the Cosy incorporates a Continuous Feather foam layer. This is complemented by Surface Sponge, Thermal Felt, and Thermofelt layers, meticulously arranged to provide an optimally balanced base. These high-quality components work in harmony to wrap your body in magnificent comfort while maintaining the mattress's shape.

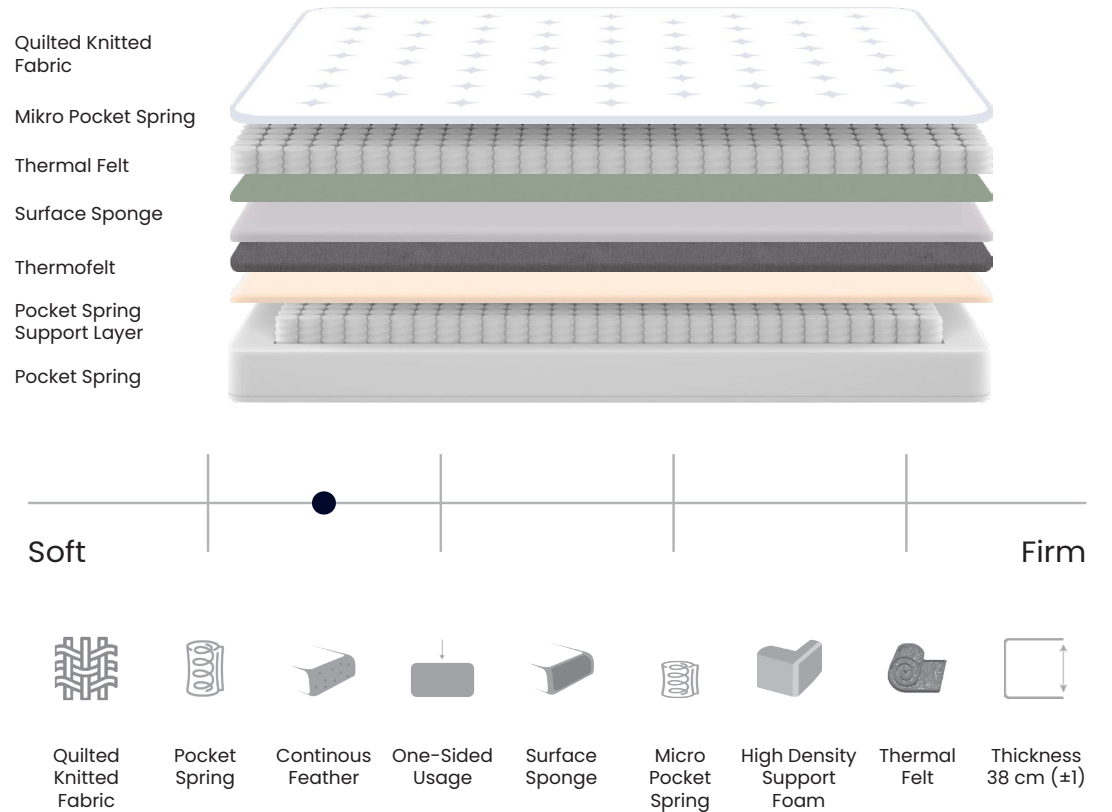

Breathable Exterior and Craftsmanship

The exterior is wrapped in a premium Quilted Knitted Fabric, designed to absorb surface moisture and promote rapid drying. This breathable surface ensures your body stays at the ideal temperature, enhancing the luxury offered by the inner layers.

Gold

This mattress with a feather pad sponge is one of the most comfortable mattresses you can sleep in. The Gold mattress, which will double your comfort, is specially made for those looking for a balanced mattress.

Double Sided Pad Mattress

The Gold mattress, which we produced using special cotton knit fabric, was supported by 2 soft pads for those looking for extra comfort.

Under favor of the design which allows you to use double sides, the life of your mattress will be extended and the mattress will maintain it's form for a very long time.

High Quality, Maximum Comfort

Your body weight will be met by the soft topper in the top layer, while the lower layer we produce from high-quality components will consistently provide the right base support for your body.

It keeps the body in balance thanks to the special fiber used in mattress quilting. Thus, brings you together with a highly comfortable sleep experience and allows you to wake up more rested.

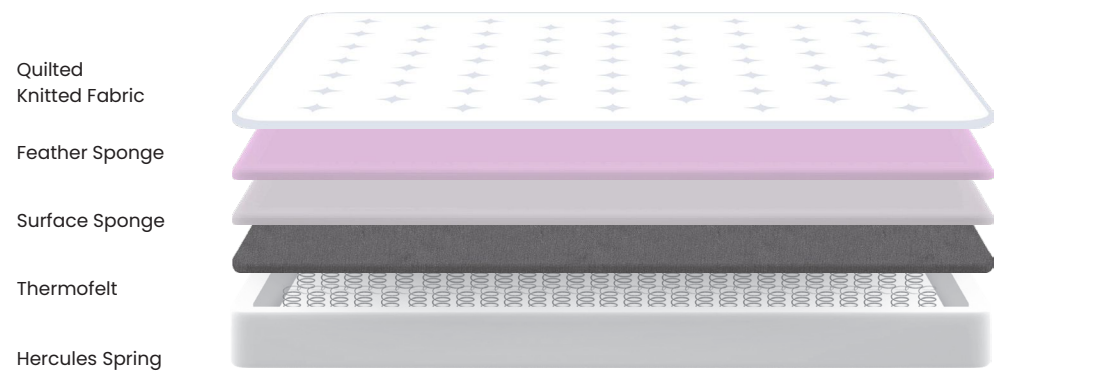

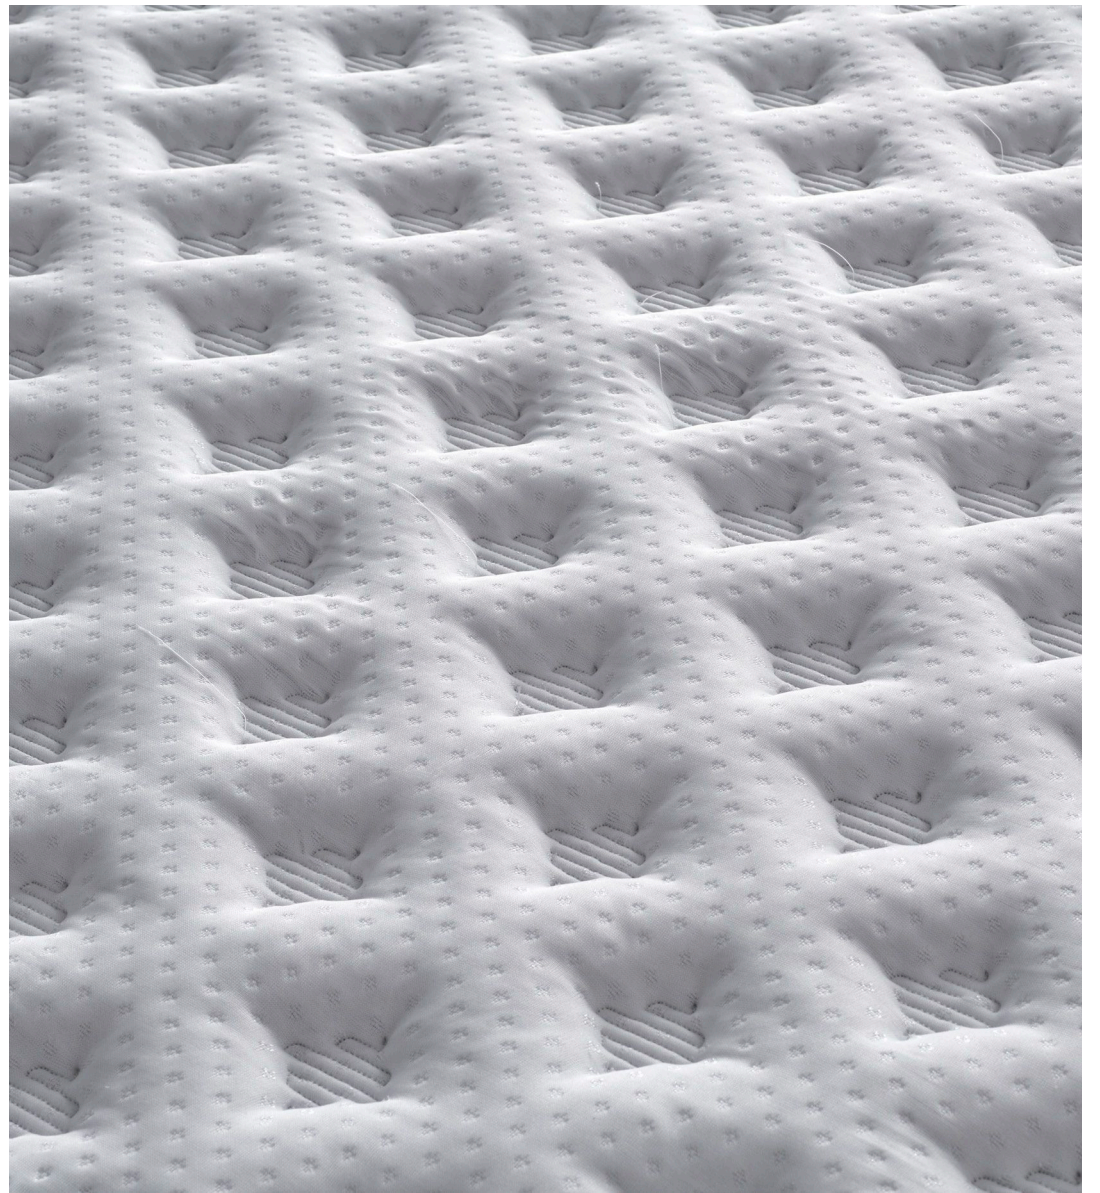

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Master

Extraordinary elegance. Perfect comfort.

Feather Pads, Excellent Appearance

Thanks to the feather pads of the master mattress, the upper surface of your bed is soft and extremely flexible, so that it will respond perfectly to the movements of your body while sleep, therefore you will be able to experience highly comfortable sleep.

The special fabric we use on the outer surface, which is produced by supporting it with cotton, will both affect you aesthetically and increase your sleep quality.

The antiallergic fabric used on its surface which has a special structure helps the outer surface of the mattress to dry quickly by absorbing moisture and helps your body to breathe. The special fabric structure prevents odor and ensures the longevity of your mattress thanks to its double-sidedness.

Unique Harmony of the Pocket Spring and Double-Sided Feather Pad

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

Stone

One of the most exclusive designs of Serabed. Designed for you with the highest quality materials and hardest foams .

Unique Durability Comes with Specially Designed Hard Pad

We produced the Stone mattress for those who love pocket spring and hard mattresses.

To create the highest durability, we used a combination of hard and durable sponge and high weight knitted cotton fabric on the upper surface. Just below this pad, we used a pocket spring and top-quality foams to create an optimally balanced base support.

Thanks to the special structure of the fabric used in the Stone mattress, a mattress suitable for use in all seasons has emerged.

The hardest sponges we use in the pad of the mattress will optimally support your body weight and support your back and body in the most appropriate way according to your sleeping position.

In addition, the highest quality materials used in the Stone mattress increase the comfort offered by the inner layers and ensure that the mattress maintains its shape for years.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

Dream Mode

A brand new technology; ' Zippered Pad That Can Be Used In Both Directions'

Your Dream Mode mattress will continue to offer you the same comfort for a very long time thanks to its directional pad.

Brand New Technology; Zipper Pad

Thanks to its brand new technology, you can use the pad of your mattress on either the front or back surface and change it at any time. You will have a soft mattress when the zippered pad is used on top and a firm mattress when it is used on bottom.

The special fabric used on its outer surface offers a perfectly balanced heat dissipation performance. When you are asleep, your mattress achieves to an ideal temperature level, reducing the humidity and allowing you to have an uninterrupted sleep.

WW

Dream Mode mattress which we created using a special skin-friendly and high-strength fabric, is supported by a soft pad for those looking for extra comfort and durability.

It will be one of the most sturdy and comfortable beds you have ever slept in.

While your body weight will be met by the soft pad on the top layer, the lower layer we produce from high-quality components will also provide the appropriate sole support for your body in a stable way.

Dream Mode keeps the body balanced thanks to the special fiber used in the mattress quilts. Thus, it brings you together with a highly comfortable sleep experience and allows you to wake up more rested.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

Cashmere

Produced for those who prefer firm and also comfy mattress.

Special Fabric, Stylish-Looking

Cashmere mattress, where we use a fabric produced using cashmere effect on the surface, helps to keep the temperature at the required level by regulating body temperature.

Thanks to the special fiber structure of the cashmere effect fabric, we have created a mattress suitable for use in all seasons; special fibers contained in the fabric on the surface helps the body to warm up, while its superior absorbent properties retain natural heat. Special knitted fabric helps the body to cool off.

High Quality Firm Mattress and Balanced Inner Material

We have produced a very firm mattress thanks to the sponges of good quality and other mattress components which provides the firmness that we use in the layers of the mattress close to the surface.

The in-bed layers that emerge with high-quality mattress components also increases the durability of the mattress by providing a stable base support suitable for your body.

The Cashmere mattress is designed as long-lasting with the materials that will maintain its form for a very long time.

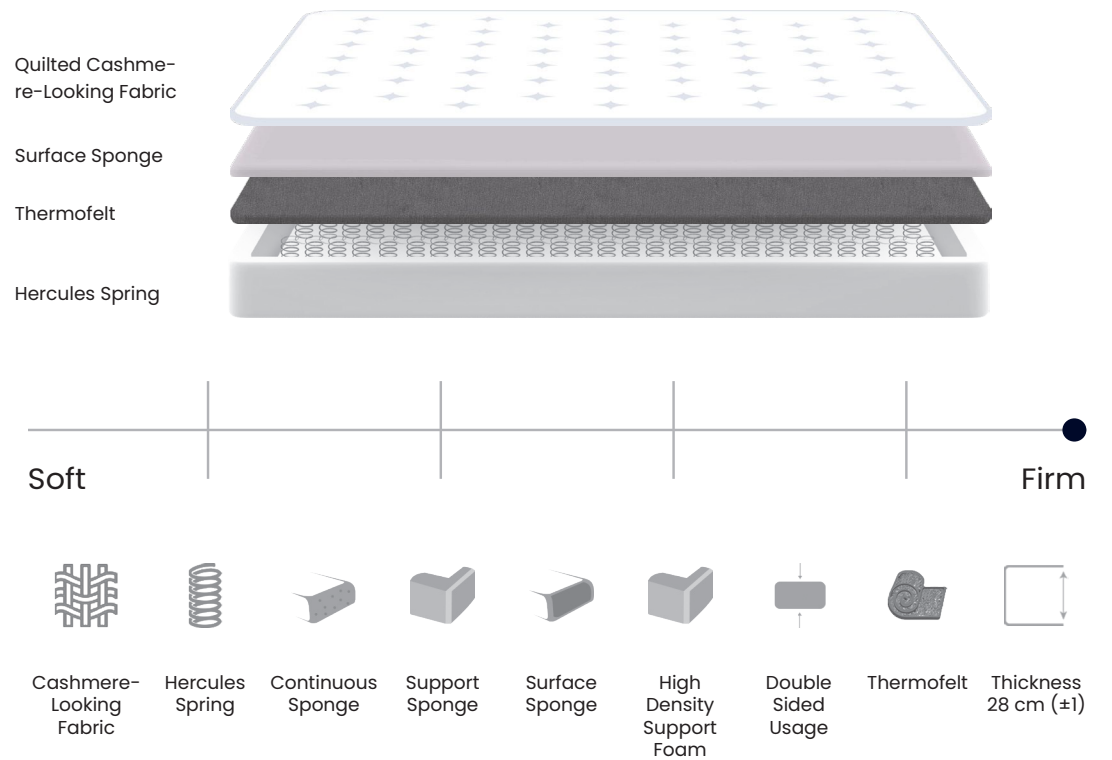

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Bamboo

The Bamboo mattress, where we use a surface fabric made from natural fiber from real bamboo plant, gives your skin a feeling of freshness and allows you to wake up fit.

Natural Materials

The outer surface, produced by processing the natural bamboo plant, absorbs moisture and quickly dries out, helping the body to breathe.

Thanks to its durability, it retains the comfort offered by the inner layers for years.

Thanks to the hard material components that we use in the layers of the mattress close to the surface, we have created a mattress that those who prefer firm mattress will love.

The in-mattress layers that we produce from high-quality mattress components also increases the durability of the mattress by providing a stable base support suitable for your body.

Deluxe

The most simple and comfortable version of the pocket spring comfort.
Really Comfortable.

Do not expect more, really comfortable.

Pocket springs that work independently will offer you one of the best quality mattress experiences. You will meet uninterrupted comfort thanks to the pocket spring system that responds to human anatomy and sleep movements with perfect harmony.

Thanks to the Cottonflex, soft felt used in the deluxe bed, your mattress has become more comfortable.

Cotton Fabric With Moisture Transfer Feature

The special fabric we use on the surface, which is supported by cotton, will both affect you aesthetically and increase your sleep quality.

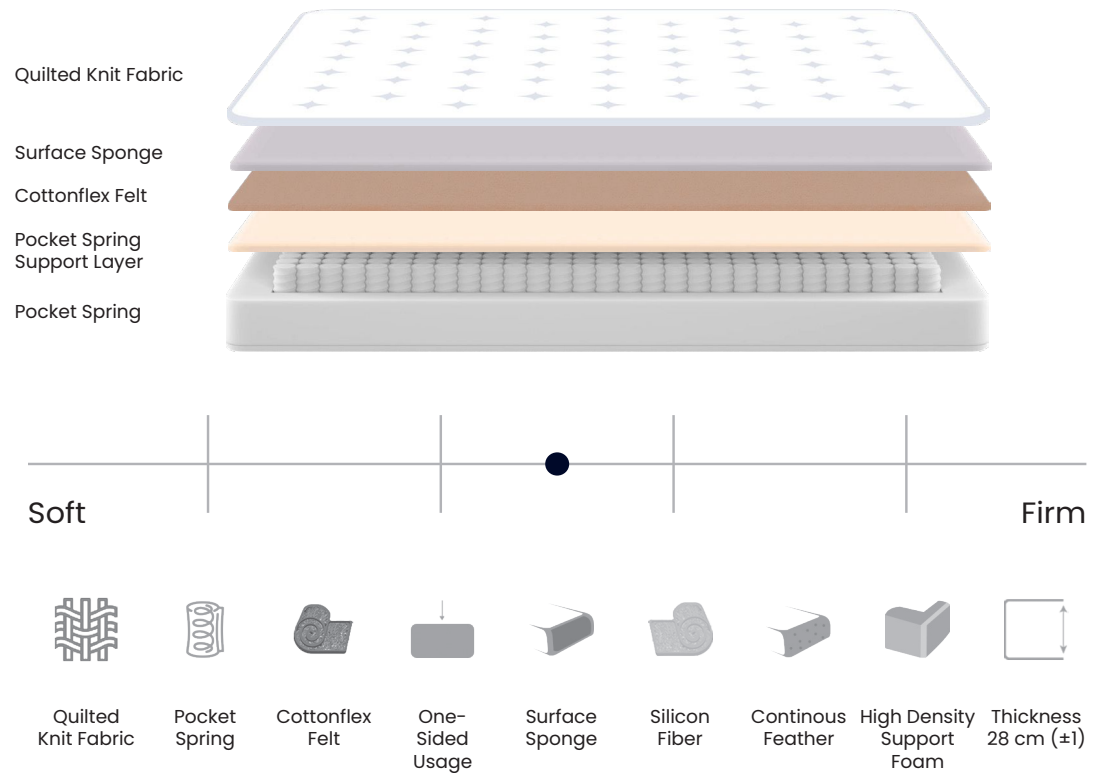

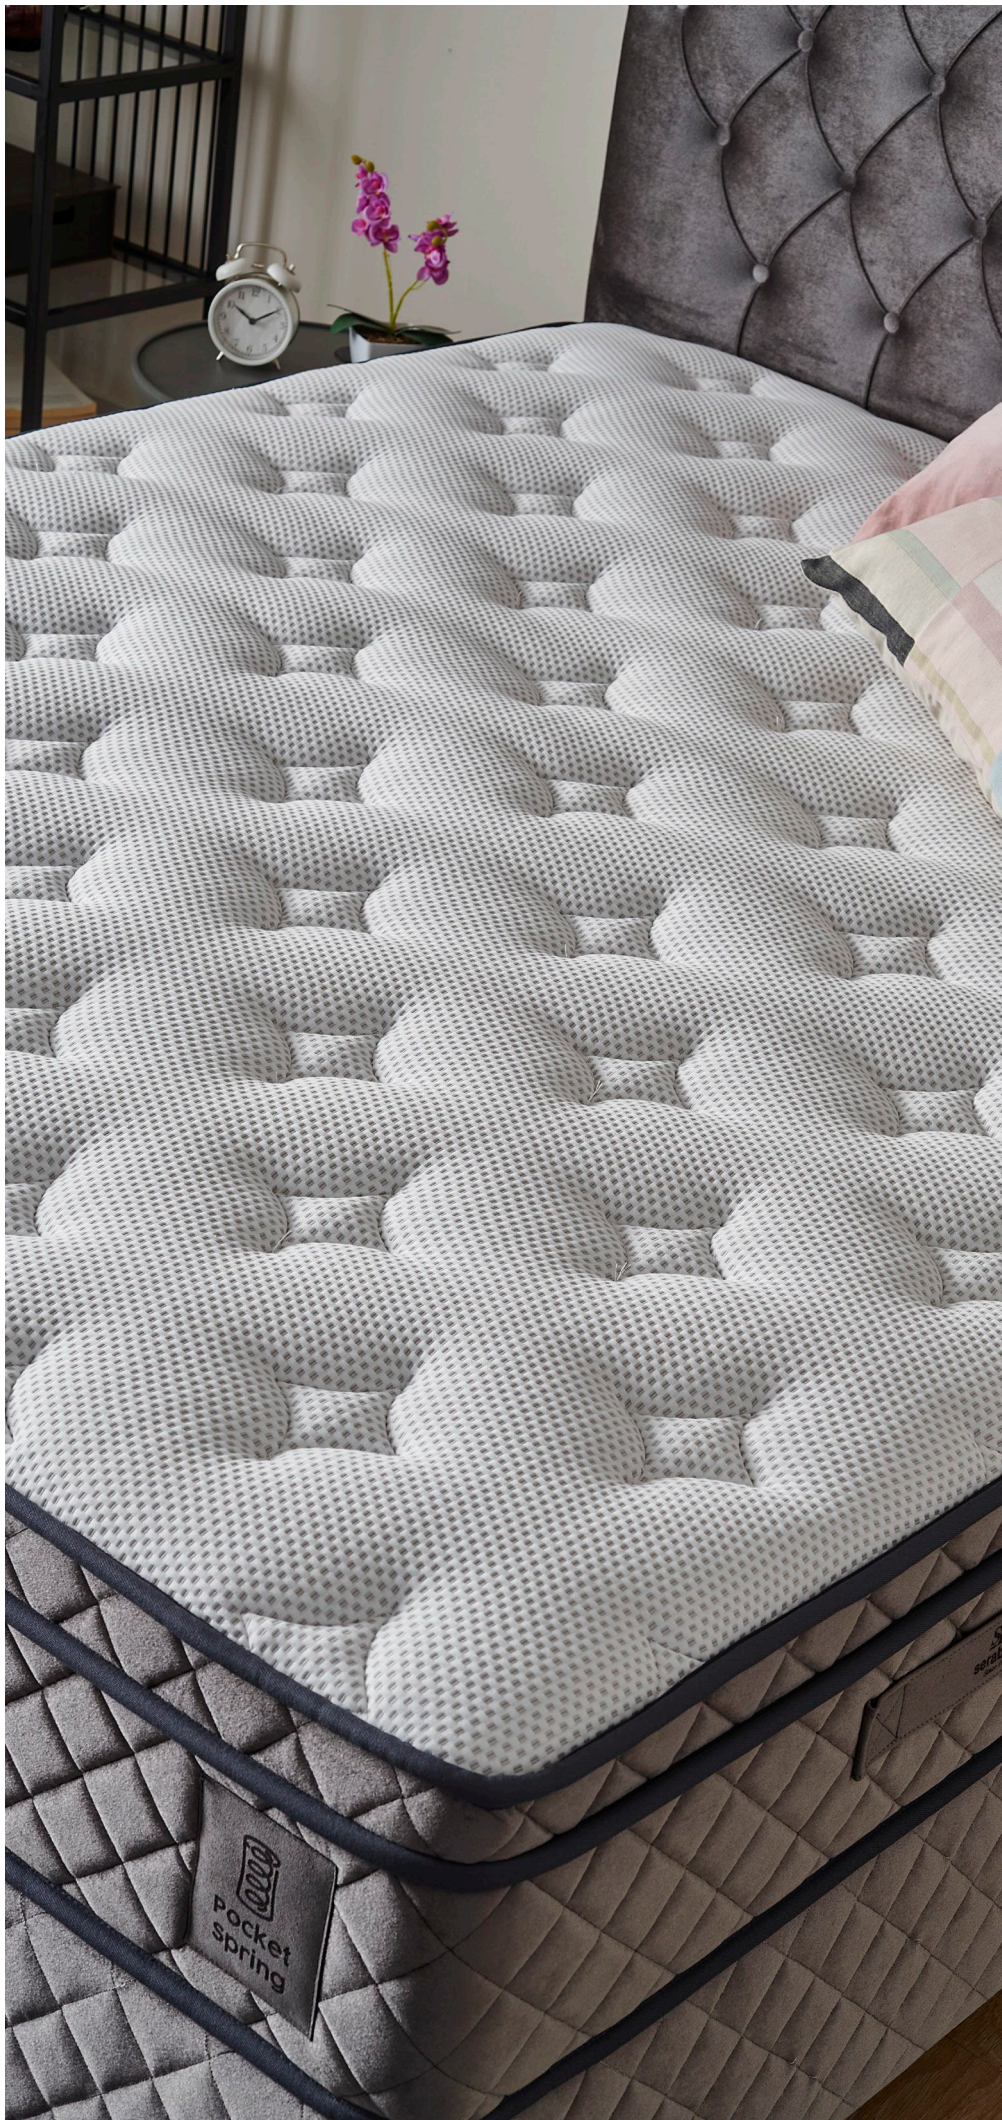

With the perfect harmony of the special cotton fabric, your mattress absorbs moisture and you get the ideal sleeping temperature.

Much longer lasting thanks to the Deluxe, good quality and highly durable support foams.

Moon

You will feel above the clouds thanks to its soft texture and topper that provides extra comfort.

Extra Comfort

Moon mattress, which we created from special knitted fabric with soft touch, was supported by a soft topper for those looking for extra comfort.

It's not an exaggeration to say it's going to be one of the most comfortable mattresses you've ever slept in. Your body weight will be met by the soft topper in the top layer, while the lower layer we produce from high-quality components will consistently provide the right base support for your body.

Moon mattress keeps the body in balance thanks to the special fiber used in its quilting. Thus, it brings you together with a highly comfortable sleep experience and allows you to wake up more rested.

Extra Strong Hercules Spring

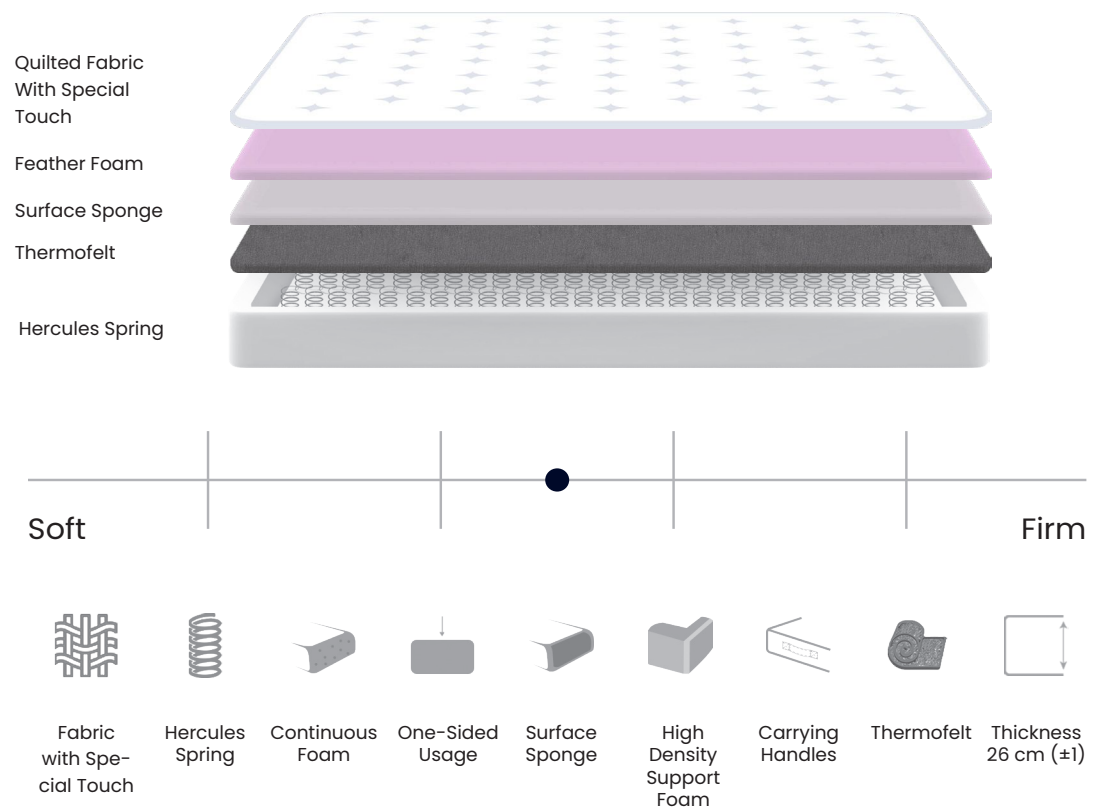

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability.

We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Leg Height (cm): 10

Regal

Long-lasting with double-sided usage, extra comfortable with pocket springs.

Breathable Special Fabric and Quality Bed Components

Thanks to the unique structure of the antiallergic fabric, a mattress suitable for use in all seasons has emerged.

This fabric structure, which is antiperspirant, prevents the odor that may occur in the mattress, thus creating a longer lasting bed.

Freedom of Double-Sided Usage

We have created a durable and long-lasting bed thanks to the medium firm material components and freedom of double-sided usage, which we used in the layers of the Regal bed's layers close to the surface.

The highest featured pocket springs and foams are used in all layers for long-lasting comfort and durability. Specially reinforced layers for each pressure zone that all points of your body apply to the mattress will provide you an uninterrupted and quality sleep.

Pocket Spring Comfort

You will experience an extraordinary comfort with the pocket spring system which responds to human anatomy and sleep movements with perfect adaptation. In addition, the spouses will be least affected by each other's movements and will have a more uninterrupted sleep.

The increased balanced surface in the top layer will meet the weight of your body and meet your back and waist with comfort, while the base area of the case, which includes the pocket springs remaining in the center, and the high-quality components in the lower layers will offer the most appropriate support to your body.

Native

Native mattress, which we have created using special quilted fabric, is one of the most robust and high quality pieces of our collection with visco support.

Very High Quality and Optimum Support

Thanks to the medium firm material components we use in the layers close to the surface of the mattress, we have created a mattress that those who prefer 'neither too firm nor too soft mattress' will love.

The base area of high-quality components in the lower layers will support the soft tissue in the top layer created with visco to grip your back and body.

The special fabric used on the surface helps the outer surface of the mattress to dry quickly by absorbing moisture and your body to breathe. The highest quality materials used in its contents increases the comfort offered by the inner layers and ensures that the mattress retains its shape for years.

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Luca

Luca, which we produce using special knitted fabric is one of the most robust members of our mattress collection.

Medium Firm and Robust Mattress

Luca, which we produce using special quilted knitted fabric that expels moisture is designed for medium firm mattress lovers.

Thanks to its specially produced hercules springs, it is one of the most robust products of our collection. Thanks to Cotonflex soft felt, your mattress will become much more comfortable.

Luca mattress was produced as one of the most robust mattresses you will sleep in thanks to the materials that we use in the inner layers.

The special fabric we use on the outer surface, which is supported by cotton, will both affect you aesthetically and increase your sleep quality.

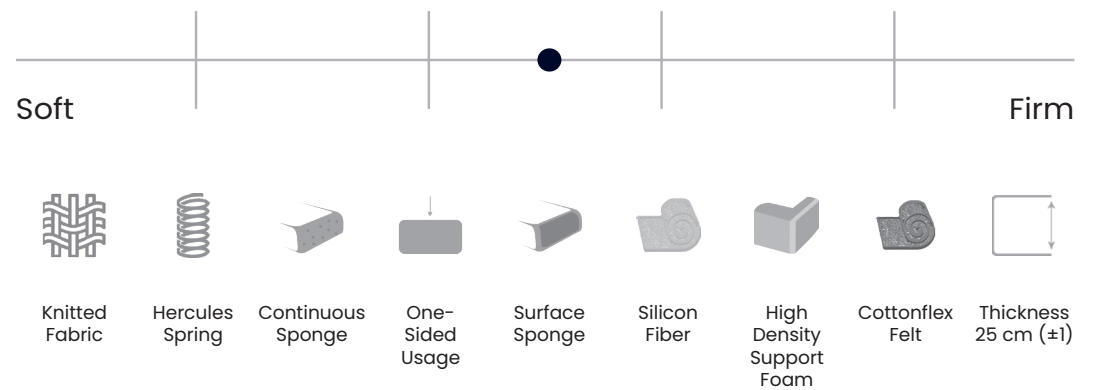

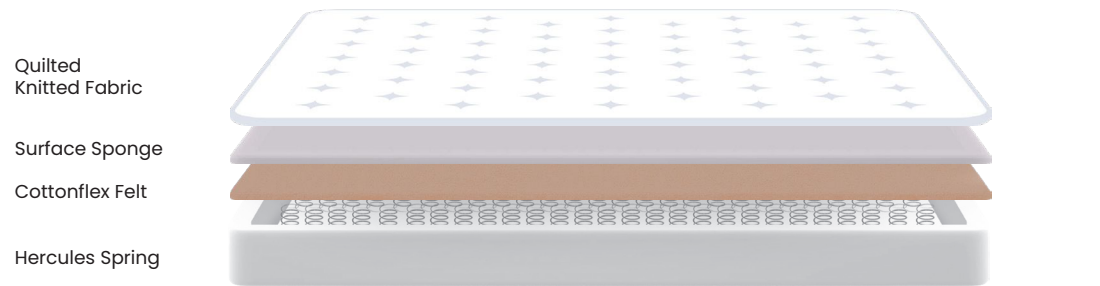

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

inci

Designed for firm mattress lovers.

Thanks to its side support sponges and specially produced springs, it is one of the most valuable and robust products of the Serabed collection.

Inci mattress was produced as one of the most robust beds you will sleep thanks to the materials we use in the inner layers.

The special fabric, that we used on the outside will both affect you aesthetically and increase your sleep quality.

Thanks to its double-sided usage feature, it also lasts much longer.

Thanks to the hercules springs and other in-bed materials that we produce and make sure of its robustness, will provide a suitable support for your whole body and maintain its form for a long time.

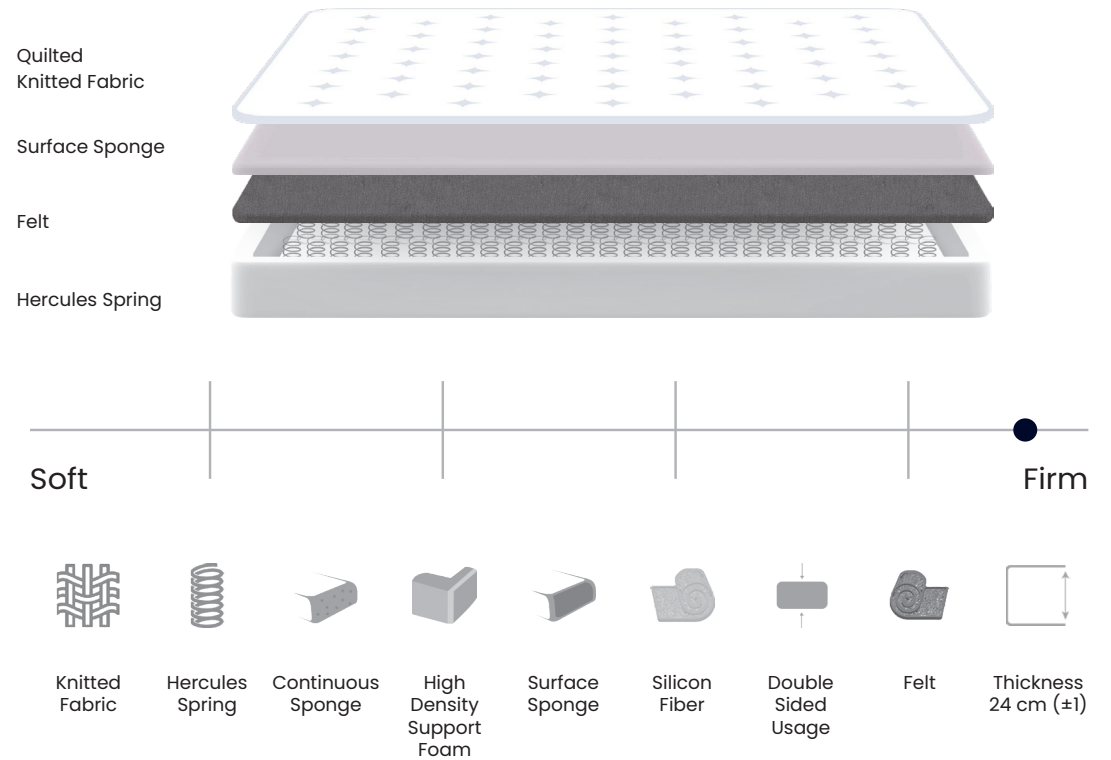

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.

Headboard Size (cm) : H:115 | W:170 | D:9

Mattress Thickness : 28cm(+/-)

Leg Height (cm): 10

Hyper Soft

Hyper Soft's one side is for soft, other side is for firm mattress lovers. You can use it by turning it to the bottom or top side upon your request.

Both Soft and Firm

For those who wants to sleep on the soft side, the hypersoft sponge we used in the inner layer of the mattress is softer and has high flexibility compared to other sponge systems. You can feel the softness and velvety texture thanks to the special sponge used in its quilting. Hyper Soft is designed as one of the most comfortable mattresses you will sleep in thanks to the special components used in its interior layers.

The in-mattress layers that we produce using high-quality components also increases the durability of the mattress by providing the appropriate base support to your body.

For those who wants to sleep on the firm side of the bed, thanks to the hard material components that we use in the layers close to the bottom surface, we have created a mattress that those who prefer firm mattress will also love.

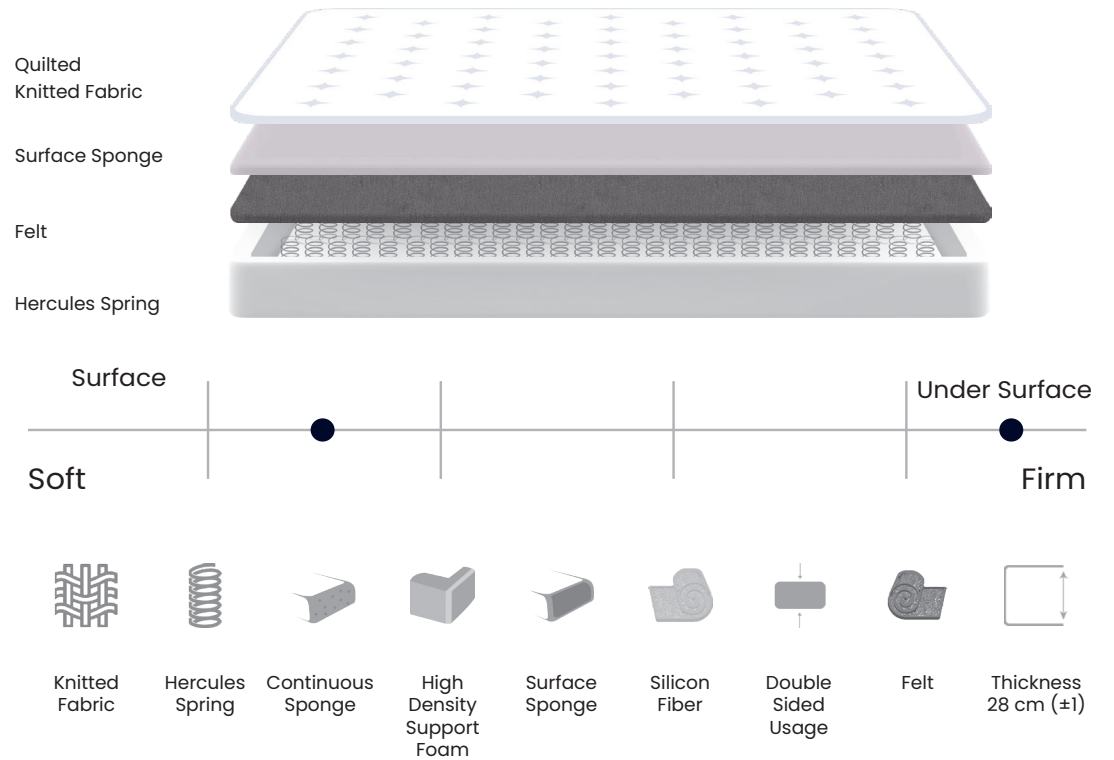

Extra Strong Hercules Spring

Thanks to the specially designed 72 mm. diameter spring technology; more springs than other mattresses spread throughout the base of the mattress, increasing comfort and stability. We rely so much on these specially produced springs that in addition to the 2-year mattress warranty, we also give 10 years guarantee for the springs.
