Design is not just lines and beauty,
but foremost about its social impact.

Re-thinking our philosophy of socially responsible, sustainable design, we have made a decision to devote our work towards carbon neutral and environmentally responsible society. With three simple steps we created strategy towards implementation of CIRCULAR ECONOMY. Environmental awareness, social impact and best user experience.
In three words: Earth.Intelligence.Comfort

Why choosing between economy and environment? Why not making environment our economy!

beatnik™ sound station chair

Design: Gigodesign

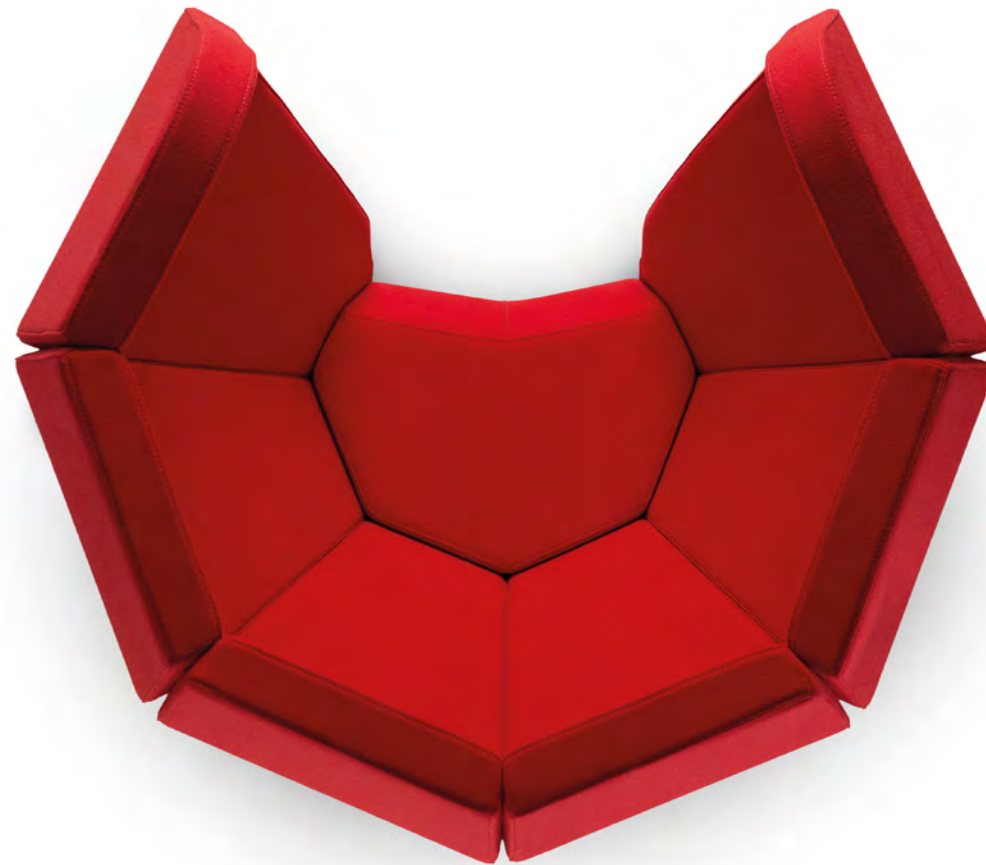

Beatnik lets you enjoy your private cocoon in the middle of busy open-plan spaces, providing sound and visual isolation. Based on the room-in-room concept, the award-winning Beatnik not only provides a new quality space within a space, but adds a distinctive feature to its surroundings. The upgraded version features a state-of-the-art sound system with integrated speakers and multimedia accessories for an immersive and enjoyable experience in your own microspace.

reddot design award
honourable mention 2013

beatnik™
sound station chair

Material: beech plywood core, padded with soft and regenerated PU foam, upholstered in sustainable fabrics, base in plywood with selected veneer finish. Available with or without Bose Multimedia System

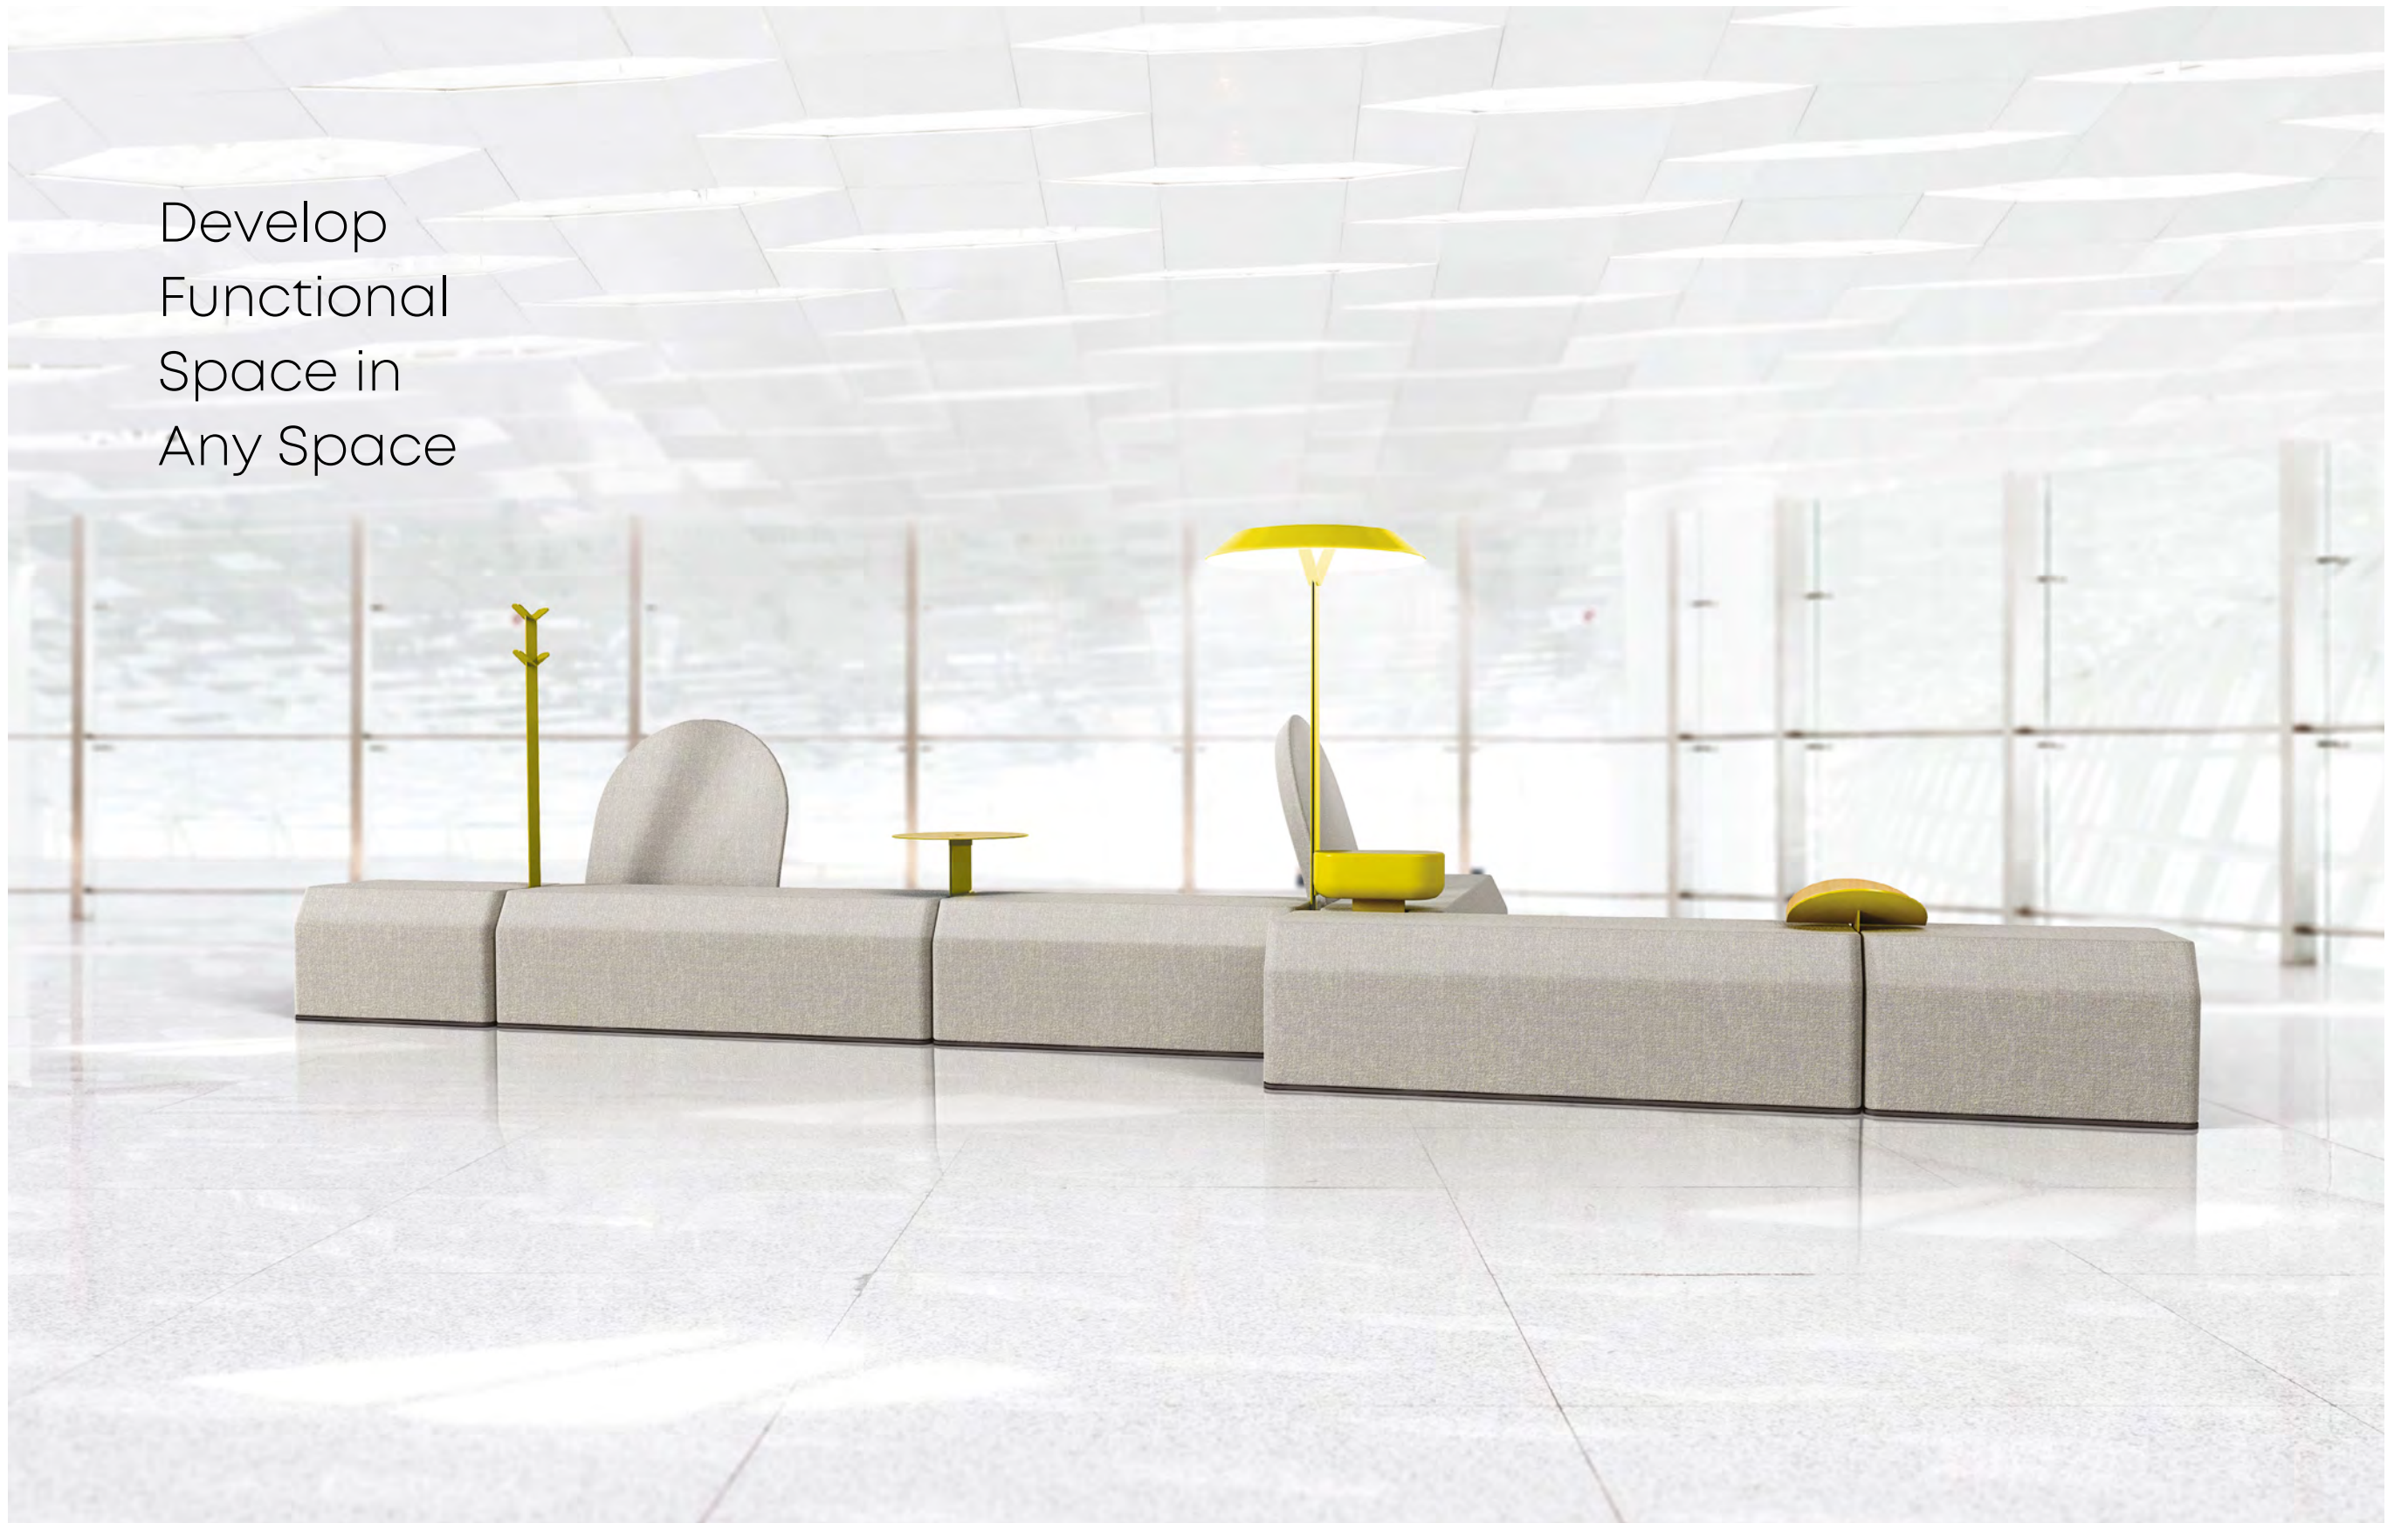

beatnik™ open source

Design: Gigodesign

Beatnik Open Source is a modular furniture system with an integrated multimedia technology, designed for a variety of functions, activities, settings or occasions. Featuring numerous modules and additional features, it creates public or semiprivate functional islands in virtually any kind of space.

Functional
Space in
Any Space

beatnik™ room-in-room

Design: Gigodesign

Beatnik Room-In-Room is a ready-made solution for open-plan offices, coworking spaces and large interiors, which provides audiovisual privacy for meetings, web conferences or simply some private contemplation. Above all, it is a distinctive object bringing character to any open space.

katedra

Design: Desnahemisfera

Katedra is more than just an office desk. It is a triumph of contrast. A large, sleek white Kerrock™ surface supported by a solid wood block that mimics stacked beams, hiding three push-to-open drawers. Among the top features is the built-in wireless phone charger, making sure your phone does not run out of power while you are working.

katedra

Material: push-to-open drawer covered with solid oak wood blocks.
Seamless top made out of Kerrock™, which is fully recyclable.
