DESCRIPTION

The Oskar Collection includes tables and consoles crafted from solid wood, distinguished by sculptural legs inspired by modernist column designs from Brasília. Fluid transitions between horizontal and vertical elements create an architectural silhouette that is both dignified and understated. Each piece is made from carefully selected solid wood, precisely milled and finished by Artisan's skilled craftsmen. The design incorporates knock-down construction for convenient transport without compromising stability. Tables feature an oval-shaped tabletop with a prominent seating position on one side, subtly suggesting social hierarchy in a positive and respectful way. Consoles derive from the table design, using the wall as a section plane that reveals and utilizes the H-shaped support element.

PRODUCTION PROCESS

Tables are crafted from carefully selected, high-quality solid wood, chosen for its durability and distinctive natural grain. Each piece of wood is precisely cut and shaped to achieve clean lines and balanced proportions. Skilled artisans meticulously assemble the components using traditional joinery techniques, ensuring lasting strength and stability. Surfaces are finely sanded to enhance the wood's texture and prepare it for finishing. The final stage involves applying a chosen finish - whether natural oil, wax, or another treatment - to protect the wood and highlight its organic beauty. The result is a versatile, handcrafted table that seamlessly blends functionality with timeless design.
